"Special Airfield Report"

Issuance depending on timing and airport conditions as noted below.
COMES OUT UNSOLICITED EVERY TIME THERE IS AIRPORT CLOSURE

Notable remarks for Field Reports are items that denote and airport closure, field limitations or other operational problems.

Some possible remarks are:

- planned RW repair causing partial or complete closure of airport;
- major infrastructure repair or remodeling - airport closed/terminal closed;
- obstacles on approach (like high industrial constructions, high buildings, cranes, etc);
- temporary airport closures due to weather conditions like snowfall, flood, ice, etc;
- various accidents like aircraft wreckage on RW, aircraft towing-off, etc.
- damaged RW equipment, lights, or taxiways
- arriving of high ranking state leaders (airport may be closed)
- ILS out of service (only NDB approach is available)
- electricity failure
- larceny of instrument approach equipment

JOINT INSPECTION OF KHABAROVSK AIRPORT WITH ALL NIPPON

Runway condition or Runway closure reports shall report RW status.

- wet RW and poor braking action (China airports do not provide -METAR runway data)
- wet snow and slush
- ice
- frozen ruts and frozen slush
- soft surface
- continuous shower and flood
- ice-crusting landing surface
- compacted snow
- snow or ice clearance in progress

Other important information may also be included.

- airport staff or ATC labor strike
- jet fuel shortage
- bomb threats or other critical security issues
